

Message from the CEO - Looking towards 2021

Peter Drucker, the famous Austrian-born American management consultant, once said, "The only thing we know about the future is that it will be different". Given what 2020 has been like for much of the parking industry, let us hope that the future is different and in a positive way. It would be a significant understatement to say that 2020 has been a difficult year for many in the industry. While the latest COVID outbreak in Sydney has reminded us that the virus is still with us, it is also pleasing to see that the NSW Government have the capability to get on top of it quickly. 3 reasons the cloud is the only place to store your data

It's 2020, "the cloud" is everywhere, and we're not talking about the one's in the sky. But what is it? Why are more and more companies hosting their and their user's data on it? And why does Frogparking host the data our system collects from our...
