

The PARKING INSIDER

Accident spots and Park'nPay app

Parking Australia has initiated discussions with AAMI to explore what we as an industry can do to decrease the number of accidents. It would be illogical to think that we can stop accidents occurring in our car parks, but we should do everything we can to make them as safe as possible. In late December AAMI insurance released figures on the number of car insurance claims made from accidents in car parks. They analysed 24,000 claims and found there were 37 per cent more car park crashes in December, totalling 2674 nationally, closely followed by January with 2185. [Read more...](#)
