PARKING INSIDER

Chief Executive's Message

This month in the Parking Insider you can read some excellent case studies from our partners and members and we also feature the launch of our [online member forum](#). This is a great platform for sharing of ideas, as well as asking questions about new technologies and discussing issues. The [Parking Manifesto](#) created from a workshop at PACE posed a few high levels questions which are on the forum for comment and discussion. The Future of Parking Committee is also keen to hear views on how prepared as an industry we are for the growth of electric and autonomous vehicles. The online forums help shape our advocacy initiatives by providing valuable feedback on issues that can facilitate the reforms and gains we are seeking as an industry. With the handing down of some state budgets in the coming months we have called

powerpark.

and provide exemptions for innovative and sustainable practices. Our Hospital Parking Charter is now in draft form and will be a point of discussion in the next few weeks as I meet with both sides of Government for endorsement on not only this but the [Accredited Operator Scheme](#). These are exciting times for our industry and its important that we champion growth, professionalism and attract and retain investment. I also encourage you to register early for [OUTLOOK 2017](#) which will feature excellent speakers, sector based sessions and of course the Parking Industry Awards. In "breaking news" I am also pleased to announce the first sponsors for the event - [Wilson Parking and Secure Parking](#), Exhibition PODS are also selling fast with some new technology and equipment on display.

Wired-up roads will charge your electric car while you're driving

Due to their low local emissions, battery-powered electric cars are more in demand than ever, but they still have a reputation for being too expensive and having too short a driving range. So how about recharging them without having to plug in a cable, while parking or even driving on the road? [Read more...](#)

CDS ticketless LPR solution implemented for Spotlight & Aldi

The Ticketless License Plate Recognition (LPR) solution provided by CDS has dramatically improved the performance of a Spotlight & ALDI car park in Victoria, with an average increase of 32% in weekly revenue. The multi-level car park located in a busy shopping centre in Victoria caters for both staff and casual patrons. However, the unmanaged abuse of a 2 hour free parking period... [Read more...](#)

Registration opens for Outlook 2017

The OUTLOOK Conference returns to Sydney in September this year with the theme for 2017 being "The Future is Today". Hear from speakers who will bring innovative thinking, and share real world experiences and case studies that promote stimulating and provocative conversation. Early bird rates apply until 30 May - [Find out more...](#)

[Self-driving car will be ready to make life or death](#)

Luxmoore Parking and Safety was established as a specialist division of the Australian Road Research Board (ARRB), to cater to the demand for independent specialist parking consultancy services. After 15 years in operation, its reputation for excellence remains, and has led to its recognition as the market leader for independent parking expertise. [Read more...](#)

How digital is disrupting transportation

Governments, institutions and companies are experiencing immense disruption. Business and engagement models are being transformed by rising citizen and customer expectations, and fueled by mass connectivity. The transportation sector is poised to move from 'human scale' to 'machine scale', creating a wave of innovation propelled by the ability of humans to connect to machines, or for machines to connect with other machines. [Read more...](#)

Online member forum for parking community

Looking for advice or information on a parking dilemma? Take the discussion online and ask the parking community through the Parking Australia Member Forum (new for March 2017). Participate in discussions with industry colleagues, get advice or information from fellow members or post a new topic for discussion. [Login here to start posting comments](#)

Parking case study from London's Westminster

In a newly released podcast from the PACE 2016 series, Kieran Fitsall from Westminster City Council discusses the challenges faced by a capital city in managing its kerbside and the role of technology in delivering parking services to an increasingly tech-savvy public. OUTLOOK 17

WE'RE SOCIAL

New to member resources this month are the key outcomes generated as part of a parking masterclass at PACE 2016. Session attendees split into three groups to create a 'parking manifesto' of actionable ideas in regards to parking requirements, the value of parking, and also how technology can be used to assist us in these areas. EasyMile announces partnership with Allianz

EasyMile and Allianz Worldwide Partners have signed an International Framework Agreement to establish insurance solutions for EasyMile's shared driverless transportation projects as of 1 January 2017. In-depth exchanges between Allianz's Automotive Innovation Center and EasyMile's expert team aim to gain real life self-driving experiences...[Read more...](#)

New AEDs offer wireless connectivity for easier device management

Sudden cardiac arrest (SCA) can happen to anyone-anywhere. Immediate treatment is vital. A victim's chance of survival dramatically decreases for every minute without treatment. That's why public access defibrillators are so important. But AEDs are effective only if they are close at hand and ready to work. [Read more...](#)

Designa Sabar becomes Designa Australia

As of 1 March 2017 DESIGNA Sabar has been renamed to DESIGNA Australia. The name change reflects the fact that the company is now a fully owned subsidiary of DESIGNA Germany and has been changed to be consistent with all other subsidiaries worldwide. [Read more...](#)
